USING THE STUDY PLAN FOR PERSONAL GAIN

The Study Plan for the *Skill Assessment Modules* (SAMs) has been developed for you, the adult student. The plan helps you learn the skills which are in the TABE™ (Tests of Adult Basic Education). Whatever your level—L, E, M, D, or A—the Study Plan can help you move up to the next level of the TABE.

The Study Plan includes the subjects (Reading, Math Computation, Applied Math, Language, Vocabulary, Language Mechanics, and Spelling) and the skills you need to know. The plan also has a list of books and exercises to help you learn. Your teacher will give you work to do for each skill. He/she will assign the work by writing the date in the column marked *Date Assigned*. Then after you finish the assignment, your teacher will write that date in the column marked *Date Completed*.

Once you complete the assignments, your teacher will check your understanding of the skills by giving the mastery test. If you answer most of the test questions correctly, your teacher can move you on to new skills. If not, your teacher may give you more assignments. The Study Plan will reflect your progress, skill by skill, in each subject.

Personal Learning Goals

What are your personal learning goals, and how can you make them happen? Use the space below to write down your ideas. As you progress through the Study Plan, look back at what you wrote. Your goals can guide your success in the classroom, at work, and at home. Good luck!

My Educational Goal

My educational goal is _____

To achieve this goal, I plan to _____

My employment goal is _____

To achieve this goal, I plan to _____
