STANDARDS	PAGE REFERENCES
<p>Standard 1: Number and Computation – The student uses numerical and computational concepts and procedures in a variety of situations.</p>	
<p>Benchmark 1: Number Sense – The student demonstrates number sense for rational numbers and simple algebraic expressions in one variable in a variety of situations.</p>	
<p>The student...</p>	
<p>1. knows, explains, and uses equivalent representations for rational numbers expressed as fractions, terminating decimals, and percents; positive rational number bases with whole number exponents; time; and money (2.4.K1a-c) (\$).</p>	<p>Student Edition: 32-34, 225-226, 229-230, 365-367, 377-378, 450-452 <i>Check Your Understanding</i> 34 #1-#9, 227 #1-#9, 231 #1-#10, 367 #1-#11, 379 #1-#13, 452 #1-#5 <i>Practice and Problem Solving</i> 35-36 #10-#46, 227-228 #10-#39, 231-232 #11-#37, 368-369 #12-#40, 379-380 #14-#41, 453-454 #6-#30 <i>Problem Solving Investigation</i> 55#6 <i>Spiral Review</i> 224 #38, 232 #40-#43, 237 #40-#43, 375 #20-#22 #26-#29, 380 #45-#48 <i>Study Guide and Review</i> 241 #43 <i>Test Practice</i> 228 #40-#41, 232 #38-#39, 369 #41-#42, 380 #42-#43 Teacher Wraparound Edition: A 36, 228, 232, 369, 380, 454; AE 33, 34, 226, 230, 366, 367, 378, 451, 452; FA 34, 227, 228, 231, 367, 379, 452</p>

STANDARDS	PAGE REFERENCES
<p>2. ▲ compares and orders (2.4.K1a-c) (\$):</p> <ul style="list-style-type: none"> a. integers; b. fractions greater than or equal to zero, c. decimals greater than or equal to zero through thousandths place. 	<p>Student Edition: 142-143, 220-222, 572-573 <i>Check Your Understanding</i> 143 #1-#9, 222 #1-#6, 573 #1-#9 <i>Practice and Problem Solving</i> 144-145 #7-#35, 223-224 #7-#32, 574-575 #10-#31 <i>Spiral Review</i> 149 #36-#38, 228 #42-#45, 232 #44, 581 #53 <i>Test Practice</i> 145 #36-#37, 224 #33-#35, 575 #32-#33</p> <p>Teacher Wraparound Edition: A 144, 224, 575; AE 143, 221, 222, 573; FA 143, 222, 573</p>
<p>3. explains the relative magnitude between whole numbers, fractions greater than or equal to zero, and decimals greater than or equal to zero (2.4.K1a-c).</p>	<p>Student Edition: 142-143, 220-222, 572-573 <i>Check Your Understanding</i> 143 #1-#9, 222 #1-#6, 573 #1-#9 <i>Practice and Problem Solving</i> 144-145 #7-#35, 223-224 #7-#32, 574-575 #10-#31 <i>Spiral Review</i> 149 #36-#38, 228 #42-#45, 232 #44, 581 #53 <i>Test Practice</i> 145 #36-#37, 224 #33-#35, 575 #32-#33</p> <p>Teacher Wraparound Edition: A 144, 224, 575; AE 143, 221, 222, 573; FA 143, 222, 573</p>
<p>4. knows and explains numerical relationships between percents, decimals, and fractions between 0 and 1 (2.4.K1a,c), e.g., recognizing that percent means out of a 100, so 60% means 60 out of 100, 60% as a decimal is .60, and 60% as a fraction is 60/100.</p>	<p>Student Edition: 32-34, 225-226, 229-230, 365-367, 377-378 <i>Check Your Understanding</i> 34 #1-#9, 227 #1-#9, 231 #1-#10, 367 #1-#11, 379 #1-#13 <i>Practice and Problem Solving</i> 35-36 #10-#46, 227-228 #10-#39, 231-232 #11-#37, 368-369 #12-#40, 379-380 #14-#41 <i>Spiral Review</i> 232 #40-#43, 237 #40-#43, 375 #20-#22 #26-#29, 380 #45-#48 <i>Test Practice</i> 228 #40-#41, 232 #38-#39, 369 #41-#42, 380 #42-43</p> <p>Teacher Wraparound Edition: A 36, 228, 232, 369, 380; AE 33, 34, 226, 230, 366, 367, 378; FA 34, 227, 228, 231, 367, 379</p>

STANDARDS	PAGE REFERENCES
<p>5. uses equivalent representations for the same simple algebraic expression with understood coefficients of 1 (2.4.K1a), e.g., when students are developing their own formula for the perimeter of a square, they combine $s + s + s + s$ to make $4s$.</p>	<p>The following sections on variables in algebraic expressions can also be used to discuss understood coefficients of 1.</p> <p>Student Edition: 632-633, 636-638 <i>Algebra Lab</i> 630-631, 642-643, 650 <i>Check Your Understanding</i> 634 #1-#13, 638 #1-#10 <i>Practice and Problem Solving</i> 634-635 #14-#44, 639-640 #11-#49 <i>Spiral Review</i> 641 #52-#55, 648 #37 <i>Test Practice</i> 635 #45-#46, 640 #50-#51</p> <p>Teacher Wraparound Edition: A 635, 640, 643, 650; AE 633, 637, 638; FA 631, 634, 638</p>
<p>Benchmark 2: Number Systems and Their Properties – The student demonstrates an understanding of the rational number system and the irrational number π; recognizes, uses, and describes their properties; and extends these properties to algebraic expressions in one variable.</p>	
<p>The student...</p>	
<p>1. classifies subsets of the rational number system as counting (natural) numbers, whole numbers, integers, fractions (including mixed numbers), or decimals (2.4.K1a,c,k).</p>	<p>Student Edition: 121-122, 138-139, 220-221 <i>Check Your Understanding</i> 123 #1-#7, 140 #1-#11, 222 #1-#6 <i>Get Ready</i> 23, 77, 137, 571 <i>Math Lab</i> 202-203 <i>Practice and Problem Solving</i> 123-124 #8-#35, 140-141 #12-#41, 223-224 #7-#32 <i>Test Practice</i> 125 #36-#37, 141 #42-#44, 224 #33-#35</p> <p>Teacher Wraparound Edition: A 125, 141, 203; AE 121, 122, 139, 221, 222; FA 23, 77, 123, 137, 140, 222, 571</p>

STANDARDS	PAGE REFERENCES
2. identifies prime and composite numbers and explains their meaning (2.4.K1d).	<p>Student Edition: 28-29 <i>Check Your Understanding</i> 30 #1-#9 <i>Practice and Problem Solving</i> 30-31 #10-#48 <i>Spiral Review</i> 36 #49-#52 <i>Study Guide and Review</i> 68, 69 #8-#9 <i>Test Practice</i> 31 #49-#51</p> <p>Teacher Wraparound Edition: A 31; AE 29; FA 30</p>

STANDARDS	PAGE REFERENCES
<p>3. uses and describes these properties with the rational number system and demonstrates their meaning including the use of concrete objects (2.4.K1a) (\$):</p> <p>a. commutative and associative properties of addition and multiplication (commutative – changing the order of the numbers does not change the solution; associative – changing the grouping of the numbers does not change the solution);</p> <p>b. identity properties for addition and multiplication (additive identity – zero added to any number is equal to that number; multiplicative identity – one multiplied by any number is equal to that number);</p> <p>c. symmetric property of equality, e.g., $24 \times 72 = 1,728$ is the same as $1,728 = 24 \times 72$;</p> <p>d. zero property of multiplication (any number multiplied by zero is zero);</p> <p>e. distributive property (distributing multiplication or division over addition or subtraction), e.g., $26(9 + 15) = 26(9) + 26(15)$;</p> <p>f. substitution property (one name of a number can be substituted for another name of the same number), e.g., if $a = 3$ and $a + 2 = b$, then $3 + 2 = b$;</p> <p>g. addition property of equality (adding the same number to each side of an equation results in an equivalent equation – an equation with the same solution), e.g., if $a = b$, then $a + 3 = b + 3$;</p> <p>h. multiplication property of equality (for any equation, if the same number is multiplied to each side of that equation, then the new statement describes an equation equivalent to the original), e.g., if $a = b$, then $a \times 7 = b \times 7$;</p> <p>i. additive inverse property (every number has a value known as its additive inverse and when the original number is added to that additive inverse, the answer is zero), e.g., $+5 + (-5) = 0$.</p>	<p>Student Edition: 632-633, 636-638, 651-652, 657-658, 748 <i>Algebra Lab</i> 630-631, 642-643, 650 <i>Check Your Understanding</i> 634 #1-#13, 638 #1-#10, 653 #1-#7, 658 #1-#7 <i>Exercises</i> 748 #1-#15 <i>Practice and Problem Solving</i> 634-635 #14-#44, 639-640 #11-#49, 653-654 #8-#35, 659-660 #8-#39 <i>Spiral Review</i> 641 #52-#55, 648 #37, 654 #39, 660 #40-#41 <i>Test Practice</i> 635 #45-#46, 640 #50-#51</p> <p>Teacher Wraparound Edition: A 635, 640, 643, 650, 660; AE 633, 637, 638, 652, 658; FA 631, 634, 638, 653, 654, 655, 660</p>

STANDARDS	PAGE REFERENCES
<p>4. recognizes and explains the need for integers, e.g., with temperature, below zero is negative and above zero is positive; in finances, money in your pocket is positive and money owed someone is negative.</p>	<p>Student Edition: 455-456 <i>Check Your Understanding</i> 457 #1-#9 <i>Practice and Problem Solving</i> 457-458 #10-#30 <i>Study Guide and Review</i> 464 #53-#56 <i>Test Practice</i> 458 #31-#32</p> <p>Teacher Wraparound Edition: A 458; AE 456; FA 457, 458</p>
<p>5. recognizes that the irrational number pi can be represented by an approximate rational value, e.g., $\frac{22}{7}$ or 3.14.</p>	<p>Student Edition: 528-530 <i>Check Your Understanding</i> 531 #1-#10 <i>Mid Chapter Quiz</i> 545 #8-#11 <i>Practice and Problem Solving</i> 531 #11-#37 <i>Spiral Review</i> 538 #26-#28, 544 #31 <i>Study Guide and Review</i> 562 #11-#19 <i>Test Practice</i> 533 #38-#39</p> <p>Teacher Wraparound Edition: A 533; AE 529, 530; FA 531, 533</p>
<p>Benchmark 3: Estimation – The student uses computational estimation with rational numbers and the irrational number pi in a variety of situations.</p>	
<p>The student...</p>	
<p>1. estimates quantities with combinations of rational numbers and/or the irrational number pi using various computational methods including mental math, paper and pencil, concrete objects, and/or appropriate technology (2.4.K1a-c) (\$).</p>	<p>Student Edition: 150-152, 276-277, 401-403 <i>Check Your Understanding</i> 152 #1-#9, 277 #1-#10, 403 #1-#8 <i>Practice and Problem Solving</i> 153 #10-#33, 278 #36-#38, 404#9-#30 <i>Problem Solving Investigation</i> 184-185 #1-#12 <i>Study Guide and Review</i> 186, 188 #26-#36, 190 #74-#75, 305 #45-#51, 410 #47-#55 <i>Test Practice</i> 154 #37-#38, 279 #39-#40, 405 #31-#34</p> <p>Teacher Wraparound Edition: A 154, 185, 279, 405; AE 151, 152, 184, 277, 402, 403; FA 278, 403</p>

STANDARDS	PAGE REFERENCES
<p>2. uses various estimation strategies and explains how they were used to estimate rational number quantities or the irrational number pi (2.4.K1a-c) (\$)</p>	<p>Student Edition: 150-152, 276-277, 401-403 <i>Check Your Understanding</i> 152 #1-#9, 277 #1-#10, 403 #1-#8 <i>Practice and Problem Solving</i> 153 #10-#33, 278 #36-#38, 404#9-#30 <i>Problem Solving Investigation</i> 184-185 #1-#12 <i>Study Guide and Review</i> 186, 188 #26-#36, 190 #74-#75, 305 #45-#51, 410 #47-#55 <i>Test Practice</i> 154 #37-#38, 279 #39-#40, 405 #31-#34</p> <p>Teacher Wraparound Edition: A 154, 185, 279, 405; AE 151, 152, 184, 277, 402, 403; FA 278, 403</p>
<p>3. recognizes and explains the difference between an exact and an approximate answer (2.4.K1a-c).</p>	<p>Student Edition: 150-152, 276-277, 401-403 <i>Check Your Understanding</i> 152 #1-#9, 277 #1-#10, 403 #1-#8 <i>Practice and Problem Solving</i> 153 #10-#33, 278 #36-#38, 404#9-#30 <i>Problem Solving Investigation</i> 184-185 #1-#12 <i>Study Guide and Review</i> 186, 188 #26-#36, 190 #74-#75, 305 #45-#51, 410 #47-#55 <i>Test Practice</i> 154 #37-#38, 279 #39-#40, 405 #31-#34</p> <p>Teacher Wraparound Edition: A 154, 185, 279, 405; AE 151, 152, 184, 277, 402, 403; FA 278, 403</p>
<p>4. determines the appropriateness of an estimation strategy used and whether the estimate is greater than (overestimate) or less than (underestimate) the exact answer and its potential impact on the result (2.4.K1a).</p>	<p>Student Edition: 150-152, 276-277, 401-403 <i>Check Your Understanding</i> 152 #1-#9, 277 #1-#10, 403 #1-#8 <i>Practice and Problem Solving</i> 153 #10-#33, 278 #36-#38, 404#9-#30 <i>Problem Solving Investigation</i> 184-185 #1-#12 <i>Study Guide and Review</i> 186, 188 #26-#36, 190 #74-#75, 305 #45-#51, 410 #47-#55 <i>Test Practice</i> 154 #37-#38, 279 #39-#40, 405 #31-#34</p> <p>Teacher Wraparound Edition: A 154, 185, 279, 405; AE 151, 152, 184, 277, 402, 403; FA 278, 403</p>

STANDARDS	PAGE REFERENCES
<p>Benchmark 4: Computation – The student models, performs, and explains computation with positive rational numbers and integers in a variety of situations.</p>	
<p>The student...</p>	
<p>1. computes with efficiency and accuracy using various computational methods including mental math, paper and pencil, concrete objects, and appropriate technology (2.4.K1a).</p>	<p>Student Edition: 163-164, 156-158, 169-170, 263-265, 282-283 <i>Check Your Understanding</i> 165 #1-#10, 158 #1-#12, 170 #1-#41, 266 #1-#11, 284 #1-#8 <i>Graphing Calculator Lab</i> 328 <i>Mini-Lab</i> 155, 162 <i>Practice and Problem Solving</i> 165-166 #11-#46, 159-160 #12-#44, 266-268 #12-#49, 284-285 #9-#47 <i>Test Practice</i> 166 #47-#48, 160 #45-#46 Teacher Wraparound Edition: A 268; AE 164, 157, 158, 170, 283; FA 165, 266, 328, 284</p>

STANDARDS	PAGE REFERENCES
<p>2. performs and explains these computational procedures:</p> <p>a. ▲N divides whole numbers through a two-digit divisor and a four-digit dividend and expresses the remainder as a whole number, fraction, or decimal (2.4.K1a-b), e.g., $7452 \div 24 = 310 \text{ r } 12$, $310 \frac{12}{24}$, $310 \frac{1}{2}$, or 310.5;</p> <p>b. N adds and subtracts decimals from millions place through thousandths place (2.4.K1c);</p> <p>c. N multiplies and divides a four-digit number by a two-digit number using numbers from thousands place through hundredths place (2.4.K1a-b), e.g., $4,350 \div 1.2 = 3,625$;</p> <p>d. N multiplies and divides using numbers from thousands place through thousandths place by 10; 100; 1,000; .1; .01; .001; or single-digit multiples of each (2.4.K1a-c); e.g., $54.2 \div .002$ or 54.3×300;</p> <p>e. N adds integers (2.4.K1a); e.g., $+6 + -7 = -1$</p> <p>f. ▲N adds, subtracts, and multiplies fractions (including mixed numbers) expressing answers in simplest form (2.4.K1c); e.g., $5\frac{1}{4} \cdot \frac{1}{3} = \frac{21}{4} \cdot \frac{1}{3} = \frac{7}{4}$ or $1\frac{3}{4}$</p> <p>g. N finds the root of perfect whole number squares (2.4.K1a);</p> <p>h. N uses basic order of operations (multiplication and division in order from left to right, then addition and subtraction in order from left to right) with whole numbers;</p> <p>i. adds, subtracts multiplies, and divides rational numbers using concrete objects.</p>	<p>Student Edition: 37-38, 156-158, 169-170, 179-180, 270-272, 282-283, 287-288, 293-294, 577-278 <i>Check Your Understanding</i> 39 #1-#7, 158 #1-#12, 170 #1-#10, 180 #1-#9, 272 #1-#7, 284 #1-#8, 288 #1-#5, 295 #1-#11 <i>Math Lab</i> 167-168, 280-281 <i>Mid Chapter Quiz</i> 161 #1-#25, 177-178 <i>Practice and Problem Solving</i> 39-40 #8-#33, 159-160 #13-#44, 171-172 #11-#49, 180-181 #10-#43, 273-274 #8-#32, 284-285 #9-#47, 289-290 #6-#40, 295-297 #12-#46 <i>Test Practice</i> 40 #34, 160 #45-#46, 172 #50-#51, 181 #44-#45, 274 #33-#34, 286 #48-#49, 290 #41-#42, 297 #47-#48, 581 #51-#52</p> <p>Teacher Wraparound Edition: A 40, 160, 172, 183, 274, 286, 290, 297, 581; AE 38, 157, 158, 170, 180, 271, 272, 283, 288, 294, 578; FA 39, 158, 168, 178, 181, 272, 274, 281, 284, 288, 295, 578, 579</p>
