

INTRODUCING THE AB-GRABBER™

Are you facing the battle of the bulge? Many individuals today are fighting a tireless battle to trim their abdominal muscles. Sadly, nothing seems to work. Those “ab” machines you see advertised are full of false promises. They simply don’t get the job done. They may strengthen your abdominal muscles, but they don’t shrink them. Some of these “wonder” devices can actually make your ab muscles *larger!*

At last, your worries are over. Introducing Ab-Grabber™—a revolutionary new ab-trimming machine that *gets results fast!!*

How Does This Amazing Machine Work?

Ab-Grabber™ uses space-age technology to take inches off your upper abdominals, lower abs, and obliques. It uses super-strong rubber bands, just like the ones the astronauts used to train. Trim your waistline while you watch TV. Best of all, thanks to Ab-Grabber’s special ergonomic design, you spend only 12 minutes a day—and results are practically instantaneous!!! You have our ironclad promise.

But What’s the Cost?

OK, so you’re asking yourself: What will it cost me to have rock-hard abs? If you’ve priced gym machines, you know they can cost thousands of dollars. Plus you need an entire room to store them in.

Well, you’re not going to spend thousands of dollars on Ab-Grabber™. You’re not going to spend \$500, \$400, or even \$300. If you act now, we’ll ship out *your* Ab-Grabber™ today for the unbelievably low price of \$198.95. You read that right. For less than \$200, you can have the abs of your dreams!

As to space, Ab-Grabber™ is surprisingly small!! Just tuck it away in a closet or under a bed when you’re finished working out. Respond to this offer within 10 days, and we’ll include our special 10-minute video and a book of mouth-watering low-fat recipes to help you fight your battle of the bulge.

Ab-Grabber™ is not sold in stores. Act today!!
