THE EYES: YOUR WINDOW ON THE WORLD

Proper eye care and safety are important to everyone, no matter what age. Help people in your community take better care of their eyes. Write a public service announcement (PSA), a short radio or TV spot addressing a vital topic. Follow the suggestions in the box, and use the space below to develop notes for your PSA. If possible, get a local broadcaster to read your work on the air.

Suggestions

To really be of service to the public, your PSA should cover the following points.

- ✓ The services provided by various kinds of health care professionals—ophthalmologists, optometrists, and opticians.
- ✓ Diseases and problems of the eye—including strabismus, amblyopia, cataracts—and whom each of these most affects.
- ✓ Treatment for various eye problems, including cataract surgery.
