

SAFETY ON WHEELS

The term *clinic* is sometimes used to describe an event or meeting in which basic instruction is given in a skill or sport. You and your fellow group members are going to conduct a Safety on Wheels Clinic for classmates and other students in the school. To begin, read and familiarize yourself with the three booklets. Use the checklist below to help you plan.

Checklist

- ✓ Date and time at which the clinic is to be held:

- ✓ Location:

- ✓ Main format of clinic (e.g., lecture, demonstration of safety techniques, slide show):

- ✓ Materials to be used or distributed at clinic. (Check one or more of the following)
 - _____ Printed copies of the on-line booklets
 - _____ Original pamphlets summarizing the information
 - _____ Posters using enlargements of art from the booklets
 - _____ Safety helmets, knee pads, and other safety equipment
 - _____ Safety certificates to those who complete the clinic
- ✓ Manner in which clinic will be advertised (e.g., flyers, posters, word of mouth, telephone committee):

- ✓ Safety experts from your school or the community who might be asked to speak:
