<b>CHAPTER 15 <i>Your Body Systems</i></b>		
Lesson 1 <i>Your Skeletal System</i>	1.1	Explain the relationship between positive health behaviors and the prevention of injury, illness, disease, and premature death.
	1.3	Explain how health is influenced by the interaction of body systems.
	1.6	Describe ways to reduce risks related to adolescent health problems.
	1.8	Describe how lifestyle, pathogens, family history, and other risk factors are related to the cause or prevention of disease and other health problems.
	2.2	Demonstrate the ability to utilize resources from home, school, and community that provide valid health information.
	3.1	Explain the importance of assuming responsibility for personal health behaviors.
	3.4	Demonstrate strategies to improve or maintain personal and family health.
Lesson 2 <i>Your Muscular System</i>	1.1	Explain the relationship between positive health behaviors and the prevention of injury, illness, disease, and premature death.
	1.3	Explain how health is influenced by the interaction of body systems.
	1.6	Describe ways to reduce risks related to adolescent health problems.
	1.8	Describe how lifestyle, pathogens, family history, and other risk factors are related to the cause or prevention of disease and other health problems.
	3.1	Explain the importance of assuming responsibility for personal health behaviors.
	3.4	Demonstrate strategies to improve or maintain personal and family health.
Lesson 3 <i>Your Circulatory System</i>	1.1	Explain the relationship between positive health behaviors and the prevention of injury, illness, disease, and premature death.
	1.3	Explain how health is influenced by the interaction of body systems.
	1.6	Describe ways to reduce risks related to adolescent health problems.
	1.7	Explain how appropriate health care can prevent premature death and disability.
	1.8	Describe how lifestyle, pathogens, family history, and other risk factors are related to the cause or prevention of disease and other health problems.

	2.6	Describe situations requiring professional health services.
	3.1	Explain the importance of assuming responsibility for personal health behaviors.
	3.4	Demonstrate strategies to improve or maintain personal and family health.
Lesson 4 <i>Your Respiratory System</i>	1.1	Explain the relationship between positive health behaviors and the prevention of injury, illness, disease, and premature death.
	1.3	Explain how health is influenced by the interaction of body systems.
	1.6	Describe ways to reduce risks related to adolescent health problems.
	1.8	Describe how lifestyle, pathogens, family history, and other risk factors are related to the cause or prevention of disease and other health problems.
	3.1	Explain the importance of assuming responsibility for personal health behaviors.
	3.4	Demonstrate strategies to improve or maintain personal and family health.
Lesson 5 <i>Your Nervous System</i>	1.1	Explain the relationship between positive health behaviors and the prevention of injury, illness, disease, and premature death.
	1.3	Explain how health is influenced by the interaction of body systems.
	1.6	Describe ways to reduce risks related to adolescent health problems.
	1.7	Explain how appropriate health care can prevent premature death and disability.
	1.8	Describe how lifestyle, pathogens, family history, and other risk factors are related to the cause or prevention of disease and other health problems.
	2.6	Describe situations requiring professional health services.
	3.1	Explain the importance of assuming responsibility for personal health behaviors.
	3.4	Demonstrate strategies to improve or maintain personal and family health.
Lesson 6 <i>Your Digestive and Excretory Systems</i>	1.1	Explain the relationship between positive health behaviors and the prevention of injury, illness, disease, and premature death.
	1.3	Explain how health is influenced by the interaction of body systems.
	1.6	Describe ways to reduce risks related to adolescent health problems.

	1.8	Describe how lifestyle, pathogens, family history, and other risk factors are related to the cause or prevention of disease and other health problems.
	2.6	Describe situations requiring professional health services.
	3.1	Explain the importance of assuming responsibility for personal health behaviors.
	3.4	Demonstrate strategies to improve or maintain personal and family health.
	7.4	Demonstrate the ability to influence and support others in making positive health choices.
Lesson 7 <i>Your Endocrine System</i>	1.1	Explain the relationship between positive health behaviors and the prevention of injury, illness, disease, and premature death.
	1.3	Explain how health is influenced by the interaction of body systems.
	1.6	Describe ways to reduce risks related to adolescent health problems.
	1.8	Describe how lifestyle, pathogens, family history, and other risk factors are related to the cause or prevention of disease and other health problems.
	2.6	Describe situations requiring professional health services.
	3.1	Explain the importance of assuming responsibility for personal health behaviors.
	3.4	Demonstrate strategies to improve or maintain personal and family health.
	3.7	Demonstrate strategies to manage stress.
Lesson 8 <i>Your Reproductive System</i>	1.1	Explain the relationship between positive health behaviors and the prevention of injury, illness, disease, and premature death.
	1.3	Explain how health is influenced by the interaction of body systems.
	1.6	Describe ways to reduce risks related to adolescent health problems.
	1.8	Describe how lifestyle, pathogens, family history, and other risk factors are related to the cause or prevention of disease and other health problems.
	2.6	Describe situations requiring professional health services.
	3.1	Explain the importance of assuming responsibility for personal health behaviors.
	3.4	Demonstrate strategies to improve or maintain personal and family health.
