

Daily Pacing Guide

Integrating FCAT Preparation

with

Glencoe Geometry

Overview

The Daily Pacing Guide helps you easily integrate FCAT preparation into your daily lesson plans by providing assignments for each day of the 26 weeks of school leading up to FCAT. Armed with the Florida Student Edition, Countdown to FCAT, and the FCAT Test Practice and Sample Test Workbook, you have many opportunities to prepare your students for FCAT every day.

Your Daily Pacing Guide shows you how to incorporate continuous daily practice into your lessons to help ensure your students' success in FCAT. Here are some features of the Daily Pacing Guide.

For the Student Edition

- Tells you which lessons to include in your daily lesson plans so that your students will have covered all of the Sunshine State Standards for their grade level before the test occurs in spring.
- Provides for FCAT Practice at the end of each chapter in the 2-page Standardized Test Practice section.
- Includes several Catch-Up Days throughout the school year to help keep you and your students on track.

For the Countdown to FCAT

- Lists each of the 25 weeks of Countdown to FCAT, so students can spend a few minutes each day practicing for FCAT.
- Allows students to practice Extended Response problems (Monday), Multiple Choice and Gridded Response problems (Tuesday, Wednesday, and Friday), and Short Response problems (Thursday).

For the FCAT Test Practice and Sample Test Workbook

- Contains a Diagnostic Test covering the Sunshine State Standards and Recording Charts where you and your students can record mastery of the Sunshine State Standards.
- Provides extensive practice for each benchmark, which may be assigned weekly for all students or may be assigned individually to those students who have not yet mastered a particular benchmark.
- Contains a Sample Test which students can complete just prior to FCAT for additional practice.
