Chapter 12 Review

Function Flash

You and your parent can use index cards or slips of paper to help you study functions. You can put a function rule and an input value on the front and the output value on the back. Fill in the table below to show what pieces of information you might put on various cards.

	Rule	Input	Output
1.	$n - 4$	2	
2.	$3n$		9
3.	$n + 3$		5.3
4.	$2n - 1$	$1\frac{1}{2}$	
5.	$2n + 1$		3

6. You can also make cards with input and output values on the front and the function rule on the back. What rule would go on the back of the card shown?

Input	Output
0	4
2	6
4	8

Answers are located on p. 111.
