# Overview

The Daily Pacing Guide helps you easily integrate EOG test preparation into your daily lesson plans by providing assignments for each day of the 33 weeks of school leading up to the EOG test. Armed with the North Carolina Student Edition, Countdown to EOG, and the EOG Test Practice and Sample Test Workbook, you have many opportunities to prepare your students for the EOG test every day.

The Daily Test Pacing Guide shows you how to incorporate continuous daily practice into your lessons to help ensure your students' success in the EOG test. Here are some features of the Daily Pacing Guide.

## **For the Student Edition**

- Tells you which lessons to include in your daily lesson plans so that your students will have covered all of the 2003 North Carolina Standard Course of Study for their grade level before the test occurs in spring.
- Provides for EOG Practice at the end of each chapter in the 2-page Standardized Test Practice section.
- Includes several Catch-Up Days throughout the school year to help keep you and your students on track.

## **For the Countdown to EOG**

- Lists each of the 25 weeks of Countdown to EOG.
- Allows students to spend a few minutes each day practicing for the EOG test.

## **For the EOG Test Practice and Sample Test Workbook**

- Contains a Diagnostic Test covering the 1998 North Carolina Standard Course of Study and Recording Charts where you and your students can record mastery of the standards.
- Provides extensive practice for each standard, which may be assigned weekly for all students or may be assigned individually to those students who have not yet mastered a particular standard.
- Contains a Sample Test which students can complete just prior to the EOG test for additional practice.
