

Glencoe Curriculum Portfolio Activities—Unit 4

Science

Create and format a table on volcanoes.

Work cooperatively with a partner to make a table on volcanoes. Find out about volcanoes by researching on the Internet or reading *Glencoe Science: An Introduction to the Life, Earth, and Physical Science*, Chapter 16 Earth's Structure, Volcanoes, pages 442-443. Create a table to show the three types of volcanoes: composite, shield, and cinder cone. For each of the three types of volcanoes, include information in your table about names of examples of this type of volcano. Format your table with shaded rows. Add a title to your table.
