

## Glencoe Curriculum Portfolio Activities—Unit 5

### Science 1

**Write and illustrate a report on extinct species.**

Did you know that 90 percent of all species that have lived on Earth are now extinct? The other 10 percent are included in the 100 million species that live on Earth today. Research on the Internet or use the text *Glencoe Science: An Introduction to the Life, Earth, and Physical Sciences*, Chapter 5, to find information about an extinct species. Describe the species, when it disappeared, and why it disappeared. Find photos or illustrations to include in your report.

Key the paragraphs into a word processor. Scan the photos or download them directly from the Internet. Spell-check and proofread your paragraphs. Cite your sources at the end of the paragraphs.
