

## Glencoe Curriculum Portfolio Activities—Unit 6

### Language Arts 2

**Create a presentation about your home.**

Read the essay “Homeless.” Think about what the author is saying about what makes a home. Is it the size or the location? Is it the kinds of things or the number of things that are in the home? Is it the people who live there? Think about your own home. What makes it home? Create a presentation about your home or a home that you hope to have when you are older. Include the elements that you think make it a home.

Key the presentation into presentation software such as PowerPoint®. Format your presentation according to the directions in your textbook. Add photos and clip art. Spell-check and proofread your presentation.
