

Glencoe Curriculum Portfolio Activities—Unit 6

Social Studies 1

Create a PowerPoint® presentation.

During World War I, new and deadly weapons were used with devastating effects. For the first time, poison gas, submarines, u-boats, tanks, and airplanes were used in warfare. Trench warfare created the need for new equipment, as well.

Create a slide show presentation about the new weapons that were developed and used during World War I. Include information about how the weapon was developed, why it was more effective than the weaponry it replaced, and its impact on warfare and on soldiers during the war. Conduct your research using *Glencoe: The American Journey* or the Internet.

Be sure to proofread and edit each of your slides. Your slide presentation should have a title slide, and you should apply design templates to each slide. Add clip art to the slides as appropriate. Be sure to proofread and edit each of your slides.
