

CHAPTER 11 CELL REPRODUCTION

Review the Key Terms

Use the Chapter 11 key terms in the box below to fill in the puzzle. You will not use all the terms.

- centromere
- cancer
- gene
- centrioles
- spindle
- chromosomes
- mitosis

ACROSS

1. joins two sister chromatids
3. process of cell division

DOWN

1. structures that contain DNA
2. small, dark, cylindrical strings made of very small tubes
4. uncontrolled cell division

Use the key terms in the box below to fill in the blanks in the statements. You will not use all the terms.

- | | | | |
|-----------|----------|------------|-------------------|
| telophase | anaphase | interphase | sister chromatids |
| metaphase | prophase | cell cycle | |

5. The _____ includes interphase and mitosis.
6. _____ are two chromatids joined by a centromere.
7. _____ is the phase of mitosis when two daughter cells form.
