

**CHAPTER 23 FUNGI****Get the Big Picture**

Find the red and blue headings in Section 23.1 of your textbook. Use the blue headings that appear after the red *General Characteristics* heading to fill in the ovals in the idea map below.

### Section 23.1 The Life of Fungi

Each statement below goes with one of the blue headings in the ovals above. Write the letter of each blue heading on the line in front of the statement it goes with.

\_\_\_\_\_ Fungi change organic waste into materials other life forms can use.

\_\_\_\_\_ Fungi are made of threadlike fibers called hyphae and cell walls made of chitin.

\_\_\_\_\_ Some fungi have parts called septa that divide hyphae into separate cells.
