

CHAPTER 27 REPRODUCTION IN FLOWERING PLANTS

Get the Big Picture

Find the red and blue headings in Section 27.1 of your textbook. Use the red headings to fill in the rectangles in the idea map below. Use the blue headings to fill in the ovals. Some of the rectangles and ovals have been filled in for you.

Each statement below goes with one of the red headings in the rectangles above. Write the letter of each red heading on the line in front of the statement it goes with. Not all headings will be used.

- _____ Pollination is affected by the length of night.
- _____ Plants use nectar, scent, and color to attract animal pollinators.
- _____ Plants have several structural adaptations.
- _____ Flowers have many modifications that prevent self-fertilization.
