

**CHAPTER 4 COMMUNITY DISTRIBUTION**

**Section 4.1 Homeostasis in Communities**

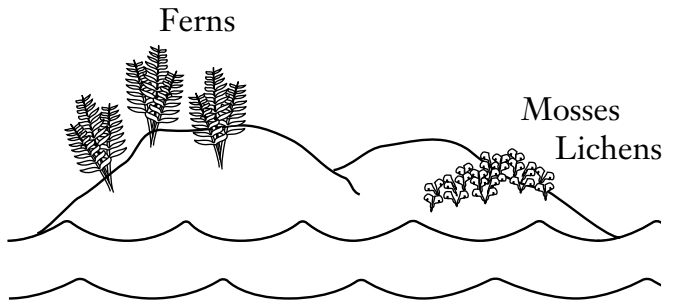

**Section 4.2 Biomes**

**Study the Pictures**

**A. Burned Forest**

**B. New Island**

Look at the pictures and read what's in the boxes. Then use the pictures and definitions to answer the questions.

**Primary Succession**  
This happens when living things grow in a new place.

**Secondary Succession**  
This happens when living things start to grow again after a flood, fire, or other natural disaster.

1. Which picture shows **primary succession**? Explain your answer. \_\_\_\_\_  
 \_\_\_\_\_
