

CHAPTER 42 IMMUNITY FROM DISEASES

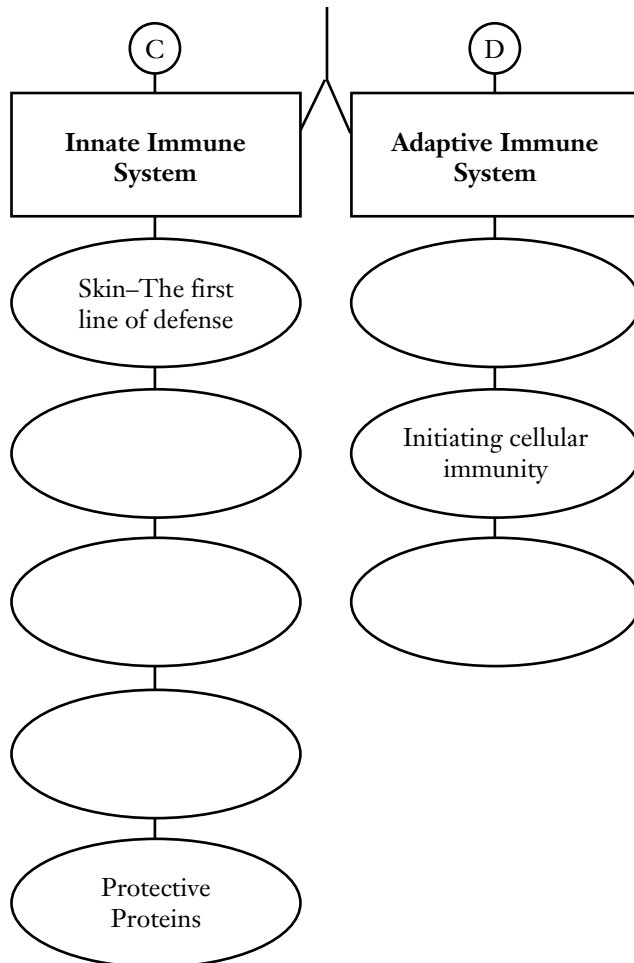

Get the Big Picture

Find the red and blue headings in Chapter 42 of your textbook. Use the blue headings to fill in the ovals in the idea map. The rectangles and some of the ovals have been filled in for you.

42.1 The Nature of Disease

42.2 Defense Against Infectious Diseases

Each statement below goes with one of the red headings in the rectangles above. Write the letter of each red heading on the line in front of the statement it goes with.

- _____ Infectious diseases may be spread by direct contact or through the air.
- _____ The skin is the body's first line of defense.
- _____ A German doctor named Robert Koch first identified that pathogens can cause diseases.
- _____ The body can become immune to an infectious disease.
