

Chapter 24

Use with Section 2

ENRICHMENT**• Land Environments****Identifying Biomes**

Use an atlas to place each of these 12 cities on the world map below. Then, compare the map you have made with the map in your textbook of the major biomes. In which biome does each city belong? Look at the information in the textbook about precipitation in each of the land biomes. Complete the table by identifying the biome each city is in.

City	Yearly Precipitation (cm)	Biome
Addis Ababa, Ethiopia	123.7	
Anchorage, Alaska	38.6	
Beijing, China	63.5	
Buenos Aires, Argentina	95	
Capetown, South Africa	50.8	
Damascus, Syria	21.9	
Lagos, Nigeria	183.6	
Madrid, Spain	41.9	
Manila, Philippines	208.3	
Paris, France	56.6	
Phoenix, Arizona	18.0	
Sydney, Australia	117.6
