

Chapter 13

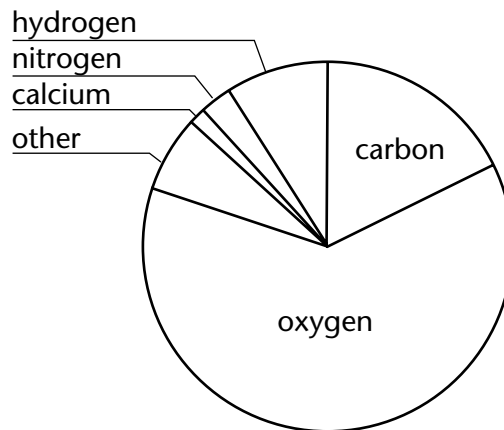

Use with Section 1

REINFORCEMENT**● Chemistry of Living Things***Answer the following questions.*

1. What are atoms? _____

Label the following diagram of an atom using the words: electron, proton, neutron.2. Is water (H_2O) an element or a compound? _____

Why? _____

*Study the graph and answer the questions.***Elements That Make Up the Human Body**1. Oxygen and carbon together make up about what percent of the elements in the human body?
(Circle the correct answer.)

a. 50%

b. 80%

c. 30%

d. 10%

2. Why is there such a large percentage of carbon? _____

3. Why is there so much oxygen? _____

4. Which elements in the graph make up the compound glucose? _____
